Full job description

THE COMPANY

Pala Interactive Canada Inc., operating as Boyd Interactive, is a full service real-money and social gaming technology provider and operator which caters to both B2C and B2B markets in Canada and the United States. Boyd Interactive offers a full spectrum of games, including casino, bingo, and poker, across all distribution channels (web, download, tablet & smartphone). Boyd Interactive has 150 employees in Toronto, New Jersey, California, and Texas.

Boyd Interactive’s strengths lie in its relentless focus on high-quality, high-functioning, immersive software platforms and the diverse employees supporting these initiatives, and with recent developments in legislation, the online gaming industry is poised for rapid growth.

Boyd Interactive is a wholly owned subsidiary of Boyd Gaming Corporation (NYSE – “BYD”).

The Junior Database Administrator will be a skilled individual who will continue to develop and support RedHat, CentOS, Tomcat Java server infrastructure, MySQL databases and Amazon cloud infrastructure across the Pala web and mobile gaming platforms.

Position Summary - Junior Database Administrator

We are seeking a motivated Junior Database Administrator (DBA) to join our Infrastructure & Operations team. This role supports MySQL databases, Linux servers, and AWS infrastructure for high-volume gaming platforms while working alongside senior engineers.

Key Responsibilities

- Assist with administration and maintenance of MySQL databases.
- Monitor database health, performance, and availability.
- Perform backups, restores, and disaster recovery tasks.
- Support MySQL replication and database patching.
- Troubleshoot database performance issues.
- Collaborate with Development, QA, DevOps, Infrastructure, and Security teams.
- Participate in production support and on-call rotation after training.

Required Qualifications

- Diploma or Bachelor's degree in Computer Science or related field.
- 2 to 4 years of database administration experience.
- Knowledge of MySQL and SQL.
- Basic Linux (Red Hat/CentOS) knowledge.
- Understanding of backup/recovery, networking fundamentals, and troubleshooting.

Technical Skills

- MySQL, SQL
- Linux (Red Hat, CentOS)
- AWS (EC2, RDS, S3, CloudWatch)
- Apache, NGINX
- Bash/Shell scripting
- Database security and PCI DSS concepts

Preferred Qualifications

- MySQL replication
- VMware
- Tomcat
- Git
- Docker
- Puppet/Chef/Ansible
- DNS, SSL, LDAP, VPN

Soft Skills

- Analytical and problem-solving skills

- Strong communication
- Organized and detail-oriented
- Self-motivated
- Collaborative team player
- Adaptable and eager to learn

Job Type: Full-time, Permanent

Salary: 95K - 105K

Benefits:

- Casual dress
- Company events
- Dental care
- Disability insurance
- Extended health care
- Life insurance
- On-site childcare
- On-site gym
- On-site parking
- Paid time off
- RRSP match
- Tuition reimbursement
- Vision care
